

## MATERIAL SAFETY DATA SHEET

According with Regulation (EC) No1907/2006 and (EC) No 1272/2008

OUALITY	MANAGEME	NT
---------	----------	----

**Version 1.1 Revision date: 06/06/2025** 

QUALITI MANAGEMENT	version 1.1 Revision date: 00/00/2025		
<b>SECTION</b> 1:Identification	of the Substance/Mixture and of the		
Company/Undertaking			
Trade name	Blood Glucose Monitoring System		
Catalog number	Blood Glucose Monitoring System(GOP-101ProSK) composed of:		
	Blood Glucose Test Meter: GOH-101Pro/GOH-101/GOH-201		
	Blood Glucose Test Strips: C901005-10		
Chemical Family/Use of the	Blood Glucose Monitoring System(GOP-101ProSK) is an automatic		
substance preparation	in vitro monitoring system for quantitative detection of glucose		
	concentration in fresh capillary whole blood.		
	The system is intended for self-testing by people with diabetes or		
	people suspected of having diabetes at home, and for near-patient testing by healthcare professionals in clinical settings.		
	The system is only used for the monitoring of blood glucose levels		
	and the preliminary screening of blood glucose abnormalities, and is		
	not suitable for the diagnosis of diabetes.		
Formula	Proprietary mixture		
Shipping name	Not applicable		
Dot hazard classification	Not applicable		
Manufacturer	Assure Tech. (Hangzhou) Co., Ltd		
	Building 4, No. 1418-50, Moganshan Road, Gongshu District,		
	Hangzhou, 310011 Zhejiang, P.R. China		
Control	Website: www.diareagent.com		
Contact	contact@diareagent.com		
Emergency telephone	Phone: #86-571-81022690		
	Fax: #86-571-88865920		
	Phone number is available during office hours as follows:		
OP OF	Mon – Fri 8: 30AM – 5:30 PM		
	TION 2: Hazards Identification		
Classification of the substance or	Classification according to Regulation (EC) No 1272/2008		
mixture	The product is not classified according to the CLP regulation		
Label elements	Labelling according to Regulation (EC) No 1272/2008		
	The product is not classified according to the CLP regulation		
Other Hazards	Our products do not contain related or similar endocrine disrupting		
	substances in accordance with (EU) 2020/878 ANNEX II and (EC) No. 1907/2006 ANNEX XIV. No particular hazards if test is used		
	according to the instructions. The product contains chemicals and		
	materials of animal origin. Although the risk of infection is rated as		
	extremely unlikely, a direct contact should be avoided.		
SECTION 3: Composition/Information on Ingradients			

## **SECTION 3: Composition/Information on Ingredients**

This product is a mixture In vitro diagnostics medical device.

## kit Components:

- 1 Blood Glucose Test Meter (REF:GOH-101Pro/GOH-101/GOH-201) with 2 AAA Batteries
- 1 Lancing Device
- 1 User's Manual
- 1 Quick Reference Guide
- 1 Carrying Case
- 1 Warranty Card
- 1 Blood Glucose Test Strips(REF:C901005-10)\*
- 1 Insert package
- 10 Sterile Lancets

\*Each test strip contains reactive and non-reactive chemicals. These chemicals are: glucose oxidase < 25 IU, mediator < 300  $\mu$ g, buffer, and non-reactive ingredient.

## **Hazardous Components:**

The product is no hazardous component according to the CLP regulation ((EC) No 1272/2008).

SECTION 4: First-aid Measures	
If used according to the instructions the described scenarios are extremely unlikely.	
After skin contact	Not applicable

After eye contact	Not applicable			
After ingestion	Not applicable			
After inhalation	Not applicable			
SECT	SECTION 5: Firefighting Measures			
Flash point	Not applicable			
Flammable limits	Not applicable			
Autoignition temperature	Not applicable			
Extinguishing media	Suitable extinguishing media: Dry chemical, CO <sub>2</sub> , water spray or alcohol-resistant foam.  Unsuitable extinguishing media: Not known. If possible, run-off water should be prevented from entering bodies of water or other environmentally sensitive areas.			
Special fire combustion products	None			
Protective equipment for firefighter	As in any fire, wear self-contained breathing apparatus and full protective gear.			
SECTIO	N 6: Accidental Release Measures			
Personal safety precaution	Not applicable			
Spill and leak procedures	Large spills or leak of this product are unlikely.			
Environmental precautions	No environmental hazard is anticipated provided that the material is handled and disposed of with due care. Generally, a release to the environment should be avoided.			
SECT	FION 7: Handling and Storage			
Precaution to be taken in handling	Storage conditions of Blood Glucose Test Meter: -			
and storage	5~45°C(23~113°F); ≤90%RH Storage conditions of Blood Glucose Test Strips: 2-30°C(35.6~86°F); ≤90%RH			
Other precautions/special hazards	Do not get water or other liquids on or inside the meter.  Keep the meter dry and avoid exposing it to extreme in temperatures and humidity.  Do not store the meter near bleach or cleaners that contain bleach.  Blood Glucose Test Strips:  Keep out of direct sunlight.  Do not freeze.  Do not store or use test strips in a humid place such as a bathroom.  Do not store the test strips near bleach or cleaners that contain bleach.  Test strips must be stored in the original vial with the cap tightly closed.  No information available.			
	Exposure Controls/Personal Protection			
The product, as supplied, does not cont established by the region specific regul <b>Exposure limits</b>	ain any hazardous materials with occupational exposure limits atory bodies.  No information available.			
Derived no effect level (DNEL)	No information available.			
Predicted no effect concentration (PNEC)	No information available.			
Skin and body protection	Laboratory clothes if needed			
Eye protection	Protective Lab Glasses if needed			
Hand protection	Impervious Gloves (nitrile, rubber, latex or equivalent)if needed			
Respiratory protection	Not applicable			
Hygiene measures	Handle in accordance with good industrial hygiene and safety practice.			
Environmental exposure controls	No special environmental controls are required. Disposal of test according to section 13.			
SECTION 9: Physical and Chemical Properties				
Physical State	Solid material			

Blood Glucose Test Meter: White Blood Glucose Test Strips: White		
Plash point   Not determined		
Not determined		
pH-value at 20°C  Not applicable for solid materials  Melting/freezing point  Vapor pressure  Vapor density  Specific Gravity  No information available.  Section 10: Stability and Reactivity  Chemical stability  The product is stable. Hazardous degradation products are not known, if the storage conditions are observed. Plastic components: Hazardous decomposition products during burning possible.  Conditions to avoid  Extreme of temperature and direct sunlight.  Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product does not present an acute toxicity hazard based on known or supplied information.  Serious eye damage/irritation  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  Respiratory or skin sensitization  No information available.  No information available.		
Melting/freezing point  Vapor pressure  No information available.  No information available.  No information available.  Specific Gravity  No information available.  No information available.  No information available.  No information available.  Solubility in other solvents VALUE  SECTION 10: Stability and Reactivity  Chemical stability  The product is stable. Hazardous degradation products are not known, if the storage conditions are observed. Plastic components: Hazardous decomposition products during burning possible.  Conditions to avoid  Extreme of temperature and direct sunlight.  Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information.  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information available.  No information available.  No information available.		
Vapor pressure  No information available.  Vapor density  No information available.  SECTION 10: Stability and Reactivity  Chemical stability  The product is stable. Hazardous degradation products are not known, if the storage conditions are observed. Plastic components: Hazardous decomposition products during burning possible.  Conditions to avoid  Extreme of temperature and direct sunlight.  Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information.  Serious eye damage/irritation  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  No information available.  Respiratory or skin sensitization  No information available.		
Vapor density  No information available.  Specific Gravity  No information available.  No information available.  No information available.  Solubility in other solvents VALUE  SECTION 10: Stability and Reactivity  Chemical stability  The product is stable. Hazardous degradation products are not known, if the storage conditions are observed. Plastic components: Hazardous decomposition products during burning possible.  Conditions to avoid  Extreme of temperature and direct sunlight.  Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information available.  Skin corrosion/irritation  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  No information available.  Respiratory or skin sensitization  No information available.  No information available.		
Specific Gravity  Water solubility  Solubility in other solvents VALUE  SECTION 10: Stability and Reactivity  Chemical stability  The product is stable. Hazardous degradation products are not known, if the storage conditions are observed. Plastic components: Hazardous decomposition products during burning possible.  Conditions to avoid  Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information available.  Skin corrosion/irritation  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  No information available.  Respiratory or skin sensitization  No information available.  No information available.		
Water solubility  No information available.  No information available.  SECTION 10: Stability and Reactivity  Chemical stability  The product is stable. Hazardous degradation products are not known, if the storage conditions are observed. Plastic components: Hazardous decomposition products during burning possible.  Conditions to avoid  Extreme of temperature and direct sunlight.  Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information available.  Skin corrosion/irritation  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  No information available.  Germ cell mutagenicity  No information available.		
Solubility in other solvents VALUE  SECTION 10: Stability and Reactivity  The product is stable. Hazardous degradation products are not known, if the storage conditions are observed. Plastic components: Hazardous decomposition products during burning possible.  Conditions to avoid  Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information.  Serious eye damage/irritation  No information available.  Skin corrosion/irritation  No information available.  Respiratory or skin sensitization  No information available.  Germ cell mutagenicity  No information available.		
Section 10: Stability and Reactivity  Chemical stability  The product is stable. Hazardous degradation products are not known, if the storage conditions are observed. Plastic components: Hazardous decomposition products during burning possible.  Conditions to avoid  Extreme of temperature and direct sunlight.  Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information.  Serious eye damage/irritation  No information available.  Skin corrosion/irritation  No information available.  Respiratory or skin sensitization  No information available.  Respiratory or skin sensitization  No information available.  No information available.		
Chemical stability  The product is stable. Hazardous degradation products are not known, if the storage conditions are observed. Plastic components: Hazardous decomposition products during burning possible.  Conditions to avoid  Extreme of temperature and direct sunlight.  Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information.  No information available.  Skin corrosion/irritation  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  Respiratory or skin sensitization  No information available.  Germ cell mutagenicity  No information available.		
known, if the storage conditions are observed. Plastic components: Hazardous decomposition products during burning possible.  Extreme of temperature and direct sunlight.  Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information.  Serious eye damage/irritation  No information available.  Skin corrosion/irritation  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  Respiratory or skin sensitization  No information available.  No information available.		
Incompatible materials  Acids.  Hazardous decomposition products  None under normal use conditions.  SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information.  Serious eye damage/irritation  No information available.  Skin corrosion/irritation  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  Respiratory or skin sensitization  No information available.  Germ cell mutagenicity  No information available.		
Hazardous decomposition products  SECTION 11: Toxicological Information  Product information  Product information  Product information  Product does not present an acute toxicity hazard based on known or supplied information.  Serious eye damage/irritation  No information available.  Skin corrosion/irritation  No information available.  Product does not present an acute toxicity hazard based on known or supplied information.  Respiratory or skin sensitization  No information available.  Germ cell mutagenicity  No information available.		
SECTION 11: Toxicological Information  Product information  Product does not present an acute toxicity hazard based on known or supplied information.  Serious eye damage/irritation  No information available.  Skin corrosion/irritation  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  Respiratory or skin sensitization  No information available.  Germ cell mutagenicity  No information available.		
Product information         Product does not present an acute toxicity hazard based on known or supplied information.           Serious eye damage/irritation         No information available.           Skin corrosion/irritation         No information available.           Acute toxicity         Product does not present an acute toxicity hazard based on known or supplied information.           Respiratory or skin sensitization         No information available.           Germ cell mutagenicity         No information available.		
supplied information.  Serious eye damage/irritation  No information available.  Skin corrosion/irritation  No information available.  Acute toxicity  Product does not present an acute toxicity hazard based on known or supplied information.  Respiratory or skin sensitization  No information available.  Germ cell mutagenicity  No information available.		
Serious eye damage/irritation       No information available.         Skin corrosion/irritation       No information available.         Acute toxicity       Product does not present an acute toxicity hazard based on known or supplied information.         Respiratory or skin sensitization       No information available.         Germ cell mutagenicity       No information available.		
Acute toxicity Product does not present an acute toxicity hazard based on known or supplied information.  Respiratory or skin sensitization No information available.  No information available.		
supplied information.  Respiratory or skin sensitization No information available.  Germ cell mutagenicity No information available.		
Respiratory or skin sensitization No information available.  Germ cell mutagenicity No information available.		
Germ cell mutagenicity  No information available.		
Carcinogenicity No information available.		
Reproductive toxicity No information available.		
Summary of evaluation of the CMR properties No information available.		
Specific target organ systemic No information available. toxicity (single exposure)		
Specific target organ systemic No information available.		
toxicity (repeated exposure)  Aspiration hazard  No information available.		
SECTION 12: Ecological Information		
<b>Ecotoxicity effects</b> Contains no substances known to be hazardous to the environment o not degradable in waste water treatment plants.		
<b>Persistence and degradability</b> Generally, plastic materials are not biodegradable and should not be dumped into the environment.		
Bioaccumulative potential The potential of product components to accumulate in animal or		
plant systems is considered to be very limited.  Mobility in soil No information available.		
Results of PBT and vPvB  No sufficient information available for assessment. To our knowledge		
this preparation contains no amounts of substances regarded as persistent, bioaccumulative and toxic (PBT) or substances that are considered to be very persistent and very bioaccumulative (vPvB) that need to be declared.		
Other adverse effects No information available.		
SECTION 13: Disposal Considerations		
Waste from residues/unused In all cases disposal of tests should be in compliance with federal an		
products local regulations. The potentially infectious character of the sample material should be taken into consideration before disposal. Observe		

Contaminated packaging	regulations for proper disposal of such materials. Frequently tests can be disposed of with the regular garbage.  If in doubt, we recommend to contact the relevant authorities and/or an approved waste-disposal company for information to ensure compliance.  Empty containers should be taken to an approved waste handling site for disposal.		
CECT	Non-contaminated packaging materials can be recycled.		
	ION 14: Transport Information		
Identification	Not applicable.		
Special provision for transport	According to the 66 <sup>th</sup> edition 2025 of IATA Dangerous Goods Regulation, the products are not dangerous, poisonous, harmful, corrosive flammable or explosive. They are not spiritual medicines, not anesthetic or narcotic, and cannot be used to make bio-chemical weapons. They are in sealed packages and conform to the export requirements by china customs and CAAC.  The products is safe for transportation and not regulated by IATA DGR/IMDG.		
SECTI	SECTION 15: Regulatory Information		
Safety, health and environmental regulations/legislation specific for the substance or mixture	This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006, Regulation (EC) No 1272/2008 and (EU) 2020/878 Annex II.		
Chemical safety assessment	For this product a chemical safety assessment has not been carried out		
SECTION 16: Other Information			
The given information is based on the current state of knowledge but does not guaranty product performances under cannot be used as basis for legal disputes  For further information please contact Assure Tech.			

**Document History** 

Revision	Changes/Reason for changes	Released (date)
1.0	New document according to IVDR requirements	2024-08-30
1.1	For the packaging of Blood Glucose Monitoring System, add meter models GOH-101 and GOH-201	2025-06-06
